## CONSTRUCTION UPDATE

Dear Neighbours,

You may have noticed that demolition of the buildings on-site is almost complete. The hard-standing is now being removed across the site and all material is being crushed.

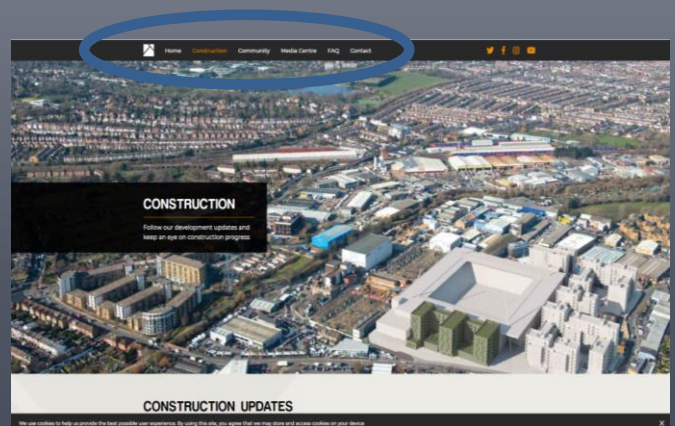

There have been some delays to the underground sewer works, but these works have now started this week.

## WEBSITE

We now have our website up and running which can be found at [www.wimbledongrounds.com](http://www.wimbledongrounds.com)

Across the top tab you will find a link to the construction page, here you can find updates on what is happening on-site as well as all the newsletters which have been issued. There are other helpful links to the latest news, contacts and community events.

If you require further information on the Stadium site or need to discuss the on-going works, then please contact our public liaison officer on the following details:

Lucille Gibbons

Direct Phone number: 0208 418 3641

Email: [public.liaison@galliarthomes.com](mailto:public.liaison@galliarthomes.com)

## WHAT'S HAPPENING ON SITE

Whilst works will be starting in October, there will only be works to prepare the site for the foundations taking place. This work is called piling and at the end of October/beginning of November you may see some large machinery similar to that pictured to the right.

## PLANNING APPLICATION

The LLP and the Football Club have jointly submitted a planning application for minor-material amendments to the scheme. The planning reference number is 18/P3162 and details can be found on Merton's planning portal.

If you require further information on the Stadium site or need to discuss the on-going works, then please contact our public liaison officer on the following details:
